NOTES/COMMENTS: The following comments are made without prejudice and purely from the point of view of the Waste Collection Authority. The facility is an existing permitted site ref HP3894ZJ/V005 that was granted a permit on 19/8/1999. The site is regulated by the Environment Agency in relation to amenity impacts. The Authority does not have any comments or objections to the extension of operations hours as detailed in the application from Suez Recycling and Recovery Kirklees Ltd as this has been negotiated as an element of the interim waste contract extension with Suez and will benefit the residents of Kirklees.
