Application for 24 Woodlea Avenue, Marsh, Huddersfield, HD3 4EF

Supporting statement regarding parking provision

Please note, that with regard to parking, the situation would not change from the existing state.

At present we park one car on the drive and any other cars are parked directly outside the property. This has been the situation since we moved to the property in June 2013, as the garage has always been used for storage. We have not had any requests from neighbours not to park here.

A wider driveway would be the obvious solution, but as you can see from the attached photographs we have a large lamp post adjacent to our existing driveway.

As you will see from photograph "24WoodleaAv02.jpg", the situation would be no different from the present situation and would not compromise road safety.
