KIRKLEES COUNCIL

SCREENING OPINION

TOWN AND COUNTRY PLANNING (ENVIRONMENTAL IMPACT ASSESSMENT REGULATIONS) 2017

Application No. 2022/90671

Applicant: SUEZ Recycling and Recovery UK Ltd

Description of Development:
Variation condition 3 (opening hours) on previous permission 2007/93455 for change of use of composting pad to permit screening of inerts and shredding of wood waste in addition to green waste

Address of Development: Emerald St HWRC, Fartown, Huddersfield, HD1 6BY

Proposal type	**Screening Opinion**	**EIA Required**	**Environmental Statement Submitted**
Schedule 1 ***Development 1***	No	**If YES EIA Mandatory** **If NO determine whether the development is Schedule 2 Development**	
Schedule 2 Development ***2***	Yes (11 other projects, (b) installations for the disposal of waste	**If YES determine whether the development is EIA Development** **If NO the development is outside the scope of the Regulations**	
EIA Development ***3***	No	**If YES provide detailed reasons and place on Part 1 of the**	

		Register **If NO place Screening Opinion on Part 1 of the Register**	
Screening Direction	N/A		
Pre-application Screening Opinion	N/A		

REASONS FOR NOT REQUIRING AN ENVIRONMENTAL STATEMENT
This proposal is a Section 73 planning application to vary condition 3 (opening hours) of the current extant permission 2007/93455 for change of use of composting pad to permit screening of inerts and shredding of wood waste in addition to green.

The variation proposed would allow an additional opening hour on Saturday and Sunday, for the site to be open to 17:00 instead of 16:00.

The Government's current planning practice guidance indicates that with regard to development associated with the disposal of waste, an Environmental Impact Assessment is more likely to be necessary for the types of development which involves any change or extensions to Schedule 2 development, which when considered with the existing development as a whole, may result in significant adverse effects on the environment.

The original planning application 2007/93455 did not require an Environmental Impact Assessment (EIA) to support the development.

As this application seeks a relatively minor increase in 1 hour of use on the weekend and bearing in mind that the site is a waste allocation in the adopted Kirklees Local Plan and the criteria set out in current planning practice guidance with regard to when an EIA is required to support a development proposal, it is considered that an EIA is not necessary to support this application.
