An extension to the side of 28 fir parade will cause issues for me as a neighbour and I object to the proposed plans. An extension to the side of the home will invade my privacy and allow 28 fir parade to directly overlook onto my property. the side extension would bring their walls closer to our boundary on the sides which would mean any future plans I have for an extension to the side of my home would make the walls of our properties almost meet and cause issues not only practically but also aesthetically. This would result in a negative impact of the character of the area, building layout and more importantly it's appearance too as 2 properties extended on the sides with walls close to each other would seem like terraced homes and make it seem cramped, tight and overcrowded which would negatively impact the value of my home and other surrounding homes too. Another issue the extension to the side would cause is that noise from the home would be noise and the disturbance it would cause if walls were brought closer to my property. Extending on the side with a bathroom would not only create strong unwanted odours but also generate unwanted noise from bathrooms such as flushing of toilet etc.Therefore i strongly object to any extension to the side of the home.
