We have been residents of Upper George street for over 27 years. Over the last few years there is an increase of student accommodation on this street which is not suitable. Late night parties, rubbish, causing mice infestations and parking issues. We have students living and I have which these guys just cause disturbance. This is a street where all the residents get on well together and is a great community with respect for one another. We also have the old people homes at the bottom of the street so the mixture of the two does not work well. Please reconsider this up and coming nightmare for a residents.
