Proposed dismantling of Eucalyptus-Gunnii. (None T.P.O)

The tree is situated on a steeply sloping embankment in close proximity to Domestic Property and access road, Carriage Drive, with one limb extending out from the base of the main stem/trunk at an acute angle over the entire width of Carriage Drive and is now encroaching upon the A616 Woodhead Road.
Following an inspection by a Tree-Surgeon it would appear that due to the nature of growth over the years, a weakness/fault has occurred at the base of the tree, COJOINT, which is I understand, jeopordising the integrity of the entire tree.
In addition to the above as from the 5th July/17 my overhead telephone line complete with replacement tel. pole, which is situated in my garden, had to be replaced. This was due to a breakage caused by Kirklees Highways carrying out re-surfacing work in Carriage Drive on the 31st May/17.
The replacement line and connection has had to be made via a different route to the original, in fact, in the opposite direction. This being due to the impracticality of using the old route

via my neighbours large dense Beech tree. (T.P.O)
This new route now means that my replacement overhead telephone line would appear to be in danger again of being damaged due to it's close proximity to and the amount of movement of the tree in question.
Therefore due to the above it is proposed to dismantle the entire tree.
