Subject: Proposed Erection single storey rear extension Ref 2024/92020

Dear Sir/Madam
Re prior notification proposed erection single storey extension Ref 2024/92020
113 upper Batley lane, Batley, WF17 0NW.
Could I bring to your attention due to the elevated position of the adjoining property at no 113 Upper Batley lane 1.5 meters above the rear of my property at 12 Robin Hill we suffer rainwater and pressure washing water flooding to our rear garden area only in the vicinity of the no 113 rear garden, we therefore at considerable cost to ourselves have had to to fit a number of ACO drains to try to drain away the excessive water encroaching our garden and from entering our property. Could you please take my comments into consideration and hopefully remedy the problem and request suitable drainage for the proposed extension and surrounding area be completed prior to completion to everyone's satisfaction.

Yours faithfully
