

Title Highway Asset Management Performance Indicators - Network Serviceability - ensuring availability, achieving integrity, maintaining reliability, resilience, managing condition - 2020/21.

Introduction Performance is continually measured to monitor our progress at achieving our aims to drive continuous improvement.

Introduction The table below sets out the Performance Indicators which are used to measure progress against Highway Infrastructure Asset Management standards. The indicators shown below are consistent with ours West Yorkshire neighbouring authorities to provide opportunities to share success and learn from each other.

Reference	Description	2016/17	2017/18	2018 /19	2019/20	end of June 2019/20	end of September	end of December	end of March 2020/21	2019/20 Target	On Target
13	% Principal Network (A roads) requiring major maintenance	4%	3%	3%	3%	Measured annually	Measured annually	Measured annually	2%	4%	Yes
14	% Non-Principal Classified Network (B & C roads) requiring major maintenance	5%	4%	4%	3%	Measured annually	Measured annually	Measured annually	2%	5%	Yes
15	% of Unclassified Network requiring major maintenance	12%	15%	21%	21%	Measured annually	Measured annually	Measured annually	17%	12%	No
16	% of footways requiring major maintenance	13%	12%	no data	19%	Measured annually	Measured annually	Measured annually	19%	13%	No
17	% of council owned highway structures in need of significant repair (excluding retaining walls)	5.4%	no data	5.1%	4.2%	Measured annually	Measured annually	Measured annually	4.0%	5.70%	Yes
18	% of bridges with width or weight restrictions	1.2%	no data	1.2%	1.3%	Measured annually	Measured annually	Measured annually	2.0%	1.20%	Partially
19	Number of street lighting faults as a % of total street lighting stock	13.4%	14.1%	7.6%	10.3%	Measured annually	Measured annually	Measured annually	9.9%	13%	Yes
20	% of UTMC Traffic Signal installations exceeding average expected service life	13%	11%	11%	12%	Measured annually	Measured annually	Measured annually	12%	11%	Partially
21	Average duration (in days) of all highway works on permit streets (KSM1)	6.36	no data	no data	no data	Measured annually	Measured annually	Measured annually	no data	For Information Only	no data
