This plan is ridiculous and has already failed to be granted permission to proceed. The applicant has no interest in the history or environment of Castle Hill and the plans are not in keeping with the importance of the site. The site is frequently used by locals and visitors in its current form and the development of this unique site will ruin it forever. I strongly object to this proposal and any further proposals by the applicant. It should remain as it is now to preserve the history and wildlife of the site.
