-1 or less

1.The occupancy rating provides a measure of under-occupancy and overcrowding. For example a value of -1 implies that there is one room too few and there is overcrowding in the household. It assumes that every household, including one person households, requires a minimum of two common rooms (excluding bathrooms).

2.General health refers to health over the last twelve months before the Census (29 April 2001).

1. Social grade is the socio-economic classification used by the Market Research and Marketing Industries, most often in the analysis of spending habits and consumer attitudes. Although it is not possible to allocate Social Grade precisely from information collected by the 2001 Census, the Market Research Society has developed a method for using Census information to provide a good approximation of Social Grade.

Footnotes:

1. The terms used to describe tenure are defined as:

Owned: either owned outright, owned with a mortgage or loan, or paying rent and part mortgage (shared ownership). Social rented include rented from Council, Registered Social Landlord, Housing association, Housing Co-operative and Charitable Trust. 'Rented from the Council' refers to rented from Council (local authority), Scottish Homes in Scotland and Northern Ireland Housing Executive in Northern Ireland. Private rented: renting from a private landlord or letting agency, employer of a household member, or relative or friend of a household member or other person. 'Living rent free' could include households that are living in accommodation other than private rented.

2. The occupancy rating provides a measure of under-occupancy and overcrowding, For example a value of -1 implies that there is one room too few and that there is overcrowding in the household.

3. Car or van availability includes any company car or van if available for private use.
