I wish to object to the above planning application:

The proposed development does not fit in with the surrounding architecture and character of the area.

The development would have a negative impact on nearby listed and traditional non listed buildings.

The development would de-value surrounding properties.

The proposed site for development has been left to become run down. The site should be cleared and redesignated as green belt, not residential.

The lanes around the preposed development are narrow with dangerous pinch points on Sharp Lane.
The lanes are used by many visiting and local walkers. The proposed development would increase traffic on these lanes, especially during work on the proposed development. If there were any vehicles parked near the junction between Westgate and Sharp Lane, which there often is, there would be absolute mayhem – Almondbury would come to a complete standstill.

To allow this development could open the door to other inappropriate housing proposals in this part of the Woodsome Valley.

The Woodsome valley is a beautiful area, any attempts to develop it would be a disaster for those visiting, living in the area and future generations. This could never be reversed.
