I am objecting to the proposed building of 5 new dwellings on Lumb Lane. From looking at the proposed location it seems to me that only a small area is made up of greenhouses and a single storey shed, and a large proportion of the area is made up of established trees, a pond and grass. This surely is agricultural land and not Greybelt or Brownbelt and should be returned to its original state.

I don't think the new houses would be in-keeping with the surrounding properties, area or landscape. It appears to me that it would have an adverse effect on the properties nearby.

On July 3rd whilst out walking on Lumb Lane, I came across a dead lying on the roadside. The Whatthreewords location is: ///flash.filer.discouraged. My contacted to inform them. The woman my spoke to had already recevied a number of calls relating to the mammal that day. The sighting of this mammal in this location suggests that there IS said mammals activity in this vicinity, and that the mitigation provided by the proposed developer is incorrect.
