Please provide the following information below : tree species (and the number used on the sketch plan) and description of works. Where trees are protected by a TPO you must also provide reasons for the work and, where trees are being felled, please give your proposals for planting replacement trees (including quantity, species, position and size) or reasons for not wanting to replant.

E.g. Oak (T3) - fell because of excessive shading and low amenity value. Replant with 1 standard ash in the same place.

Ash (T1) Extensive damage due to helical cracking the length of the main stem. Remove.
Sycamore (T2) Main stem extensively scarred and bark peeling away from entire length of stem Large branches have fallen. Near to property. Remove
Ash (T3) Sapling grown with 2 stems from base. Stems are impaired. Both roots and stems are destroying boundary fencing. Remove
Removal of T1, T2 and , in particular, T3 will:
