It's likely that works to the protected trees will be need to finish implementing this part built development. On that basis we need to see more information to show what tree works will be needed, pruning etc.

I'm happy for this to be secured, and then agreed by us, by either submission of additional info pre determination or via a condition. If a condition is used we would need to make sure that the works are agreed by us prior to any further building on site.

Thanks
