09-01-2026

I wish to formally object to application 2035/93355 on the grounds that Hepworth Lane and surrounding areas cannot accommodate the extra development and traffic this would generate. The lane and surrounding lanes are too narrow in places for two cars to pass and lack foot paths creating a safety concern especially for school children that use these lanes to access the school next door.
This will increase the risk of accidents and congestion for road users.

Yours
