Subject: Balderstone Fields,Bellway Homes

I am objecting to application 2025/93355.Land off Woodward Court/Hepworth Lane.
This proposal would have a enormous impact on the infrastructure on the surrounding areas,by causing a significant increasing amount of traffic,causing danger to pedestrians and local road users.Wellhouse Lane,Jenny Lane and Hepworth Lane are absolutely a serious concern,especially when children are going to and home from school.They are serious hot spot areas,which are now encroaching on Quarryfields,Wellhouse Ave,Lockwood Avenue and even Crossley Lane,also Greenside Road.
I also would wish to express my concerns regarding the pollution it causes.I have to avoid that area between school times, when the children are being picked up from school.Parents sit in cars from 14.30,with their engines running waiting for the children coming out of school,also double parking and abandoning their cars at the end of junctions,causing an obstruction,also parking on the causeway,making it difficult for padestrians and people with pushchairs,and the disabled.These areas can not possibly cope with anymore traffic congestion.
Your sincerely
