Type of comment: An objection
I put an objection to the plan on gounds of safety. To avoid the blind bend at the junction, of Low Gate/ Low Town, children and parents use the path through the proposed site to gain access to the stairs leading to North Road. The drives for all three houses back out onto the aforementioned blind junction, of which no continuous foot path exists. I object on the grounds of Traffic congestion. Low Town becomes congested on a daily basis with cars parked by people who work in Kirkburton and those on local school run. The new development allows for 6 cars; which will add to the already existing congestion and parking problems I object on the grounds of the loss of the trees and wildlife there has been a decimation of the land; the current plans lack proposed replacement of new trees. The kirklees tree officer nick goddard has already recommended more trees be planted 'given the amount of tree removals that have been undertaken recently '.
