Subject: Planning application 2025/93355 (Land off Woodward Court)

Dear Team Admin
Can you not see the dangers in the way the road through said development will actually happen. School and other traffic will use it as a rat run from the Woodward Court entrance to the exit on to Hepworth Lane. The exit on to Hepworth Lane will be a blind left turn in to oncoming traffic and also it's only wide enough for one vehicle. This is an accident waiting to happen. Come and have a look and you will realise how bad it will be. Then, if planning permission is given how will all the huge vehicles for said building site manoeuvre in, out and around said site ? There will be chaos as the Lanes are just not big enough to cope.
