Importance:	High

To whom it may concern

We have a number of diseased and dangerous trees on our site that need to be felled. We have carried out two surveys (attached) that highlight this. A year ago we instructed a tree surgeon, Kevin Stephenson to apply for planning and remove the trees but he has yet to start the work I have now instructed Nigel from Tree Solutions.

Given the nature of our business (children's nursery) and the safety of the children in our care, can we go ahead with the action advised in the survey report and give you a five day notice?

Being a forest school we teach our children the importance and value of our trees and we will be replacing all that are felled

Kind Regards

Michael Murphy
