and would like to object to this application.

For information, the work on the temporary grasscrete staff car park has already started. It began on Monday, 23 November so it looks like the school has 'jumped the gun'.

Notwithstanding the above, the proposed entrance to be used to access the car park is completely unsuitable for this purpose. Luck Lane is a narrow road at this point and is very congested, particularly at the beginning and end of the school day when parents park dangerously and on kerbs.

In addition, lorries use the road as a rat run and a short cut, connecting them between the A62 and New Hey Road/Westbourne Road to save having to go via the ring road in the centre of Huddersfield.

Any staff cars coming down Luck Lane in a southerly direction, would cause a long tail back of traffic whilst attempting to turn right through this entrance into the car park at the busiest times of day. Staff cars coming up Luck Lane in a northerly direction may also cause a tailback, though to a lesser extent.

The road is already busy and congested and this staff car park would add to this congestion and diminish the quality of life for residents

I object to this (already underway) planning application.
