Having reviewed the plans and the supporting statement we are concerned at the scale of the extension and the impact on our home. In particular we are concerned that a 3 storey extension will have an adverse impact on our life we currently enjoy at our home.

We are the first occupiers on this block of town houses who have lived next door to the applicant for 11 years. One of the selling points for buying our home was the ground floor kitchen and first floor lounge is excellent for natural light due to the orientation and aspect of the build. The current plans will impact on the natural light we have enjoyed due to overshadowing of the extension.

There is also the issue of disruption during the build process where noise and dust from the works will impact on our use of our back garden and homeworking for an unknown period of time.

On balance we have no objection if plans were revised to a single storey extension. However we cannot support the current plans as a 3 storey extension for the reasons stated above.
