I am the neighbour directly next door to the property applying for the extension in question.
Given that the proposed extensions are so close to the physical boundary of my house, it will have a detrimental effect on my property. I am very opposed to the potential front and rear extensions as the substantial physical size of the proposed extensions will result in a loss of privacy and light to my property.
Furthermore, one of the main bedrooms effected by these potential extensions, is my bedroom, who spends all her day in her bedroom. The proposed extensions will result in a significant loss of light to her bedroom. One of my main concerns is that this will further impact

The proposed rear and front extensions will affect my privacy and cast a substantial shadow in my garden space, given its sheer size, elevation and placement of windows on the proposed extension plan.
