I don't think you should give permission for this extension, as this will cause many members of this house car parking on the street and so many skips and lorry's that cause obstructions, and there's been any accidents in the process of building work and also the neighbour is to be known using unprofessional builders who decide to leave material on the pavement which is quite dangerous for children and elders, and also they will block the light which comes from back of the house to the street so please can you look into this and do you not approve. This has all my neighbours agree . Number 26 is quite on the corner of the street which is very difficult for Council to turn in because of their vehicles. When this extension is accepted. It will be a bigger family moving in and I'll be approximate 12 to 14 people, so I think you can understand our concerns in this matter. Mr Rafiq did do some building construction and the builders lift everything outside nails, chemicals and other stuff which was just so dangerous and there was a lot of building work still not finished so please do not accept this for the safety for our neighbours and the community.
