Appendix A – Climate Change Statement

Climate Change Statement for Planning Applications

Part 1: Applicant details

Name of applicant/agent	Darren Battye - Mike Hardill JMH Design
Site Address	19 Burton Acres Lane High Burton Huddersfield HD8 0QR
Description of Development	Replacement of conservatory roof and pitched roof to rear with flat roof

Part 2: Climate Change Mitigation measures

Please respond to the following questions considering the measures set out in the Climate Change Guidance note:
Q1: What measures have been/will be taken to reduce the energy demand associated with your proposed development beyond the minimum required in Building Regulations? (See section 2)
The proposed new roof replaces an uninsulated structure and will meet or better building regs requirement
Q2: What measures have been/will be taken to limit the carbon consumed through the implementation and construction processes, e.g. by reusing existing on-site materials or sourcing materials locally? (See section 3)
existing wall & foundations retained reducing the work required all new materials to be sourced locally where possible Timber used to be from FSC sources
Q3: What measures have been/will be taken to utilise renewable or low carbon energy sources? (See section 4)

Proposed work too small to consider other measures
Q4: What measures have been/will be taken to ensure the building design and layout has been optimised to energy efficiency beyond the minimum requirements in Part L of the Building Regulations ? (See section 5)
All to comply with Part L or better where possible
Q5: What measures have been/will be taken to reduce potential impacts of flooding associated with your proposed development? (See section 6)
N/A
Q6: What measures have been/will be taken to reduce water stress associated with your proposed development? (e.g. Water retention and minimisation measures) (See sections 7 and 8)
N/A
Q7: What measures have been/will be taken to provide biodiversity net gains? (See section 8)
Proposed work too small to consider other measures
Q8: What measures have been/will be taken to reduce air pollution associated with your proposed development? (See section 9)
all new materials to be sourced locally where possible to reduce transport emissions
