DEVELOPMENT MANAGEMENT

Town and Country Planning Act 1990 (as amended) – SECTION 70

DELEGATED DECISION TO DETERMINE PLANNING APPLICATIONS

Reference No:	**2024/62/91528/E**
Site Address:	119, Huddersfield Road, Shelley, Huddersfield, HD8 8HF
Description:	Erection of front porch, rear canopy, alterations to windows and solar panels to roof
Recommending Officer:	Jennifer Booth

DECISION – CONDITIONAL FULL PERMISSION

I hereby authorise the approval of this application for the reasons set out in the officer's report and recommendation annexed below in respect of the above matter.

Emma Thompson

AUTHORISED OFFICER

Date: 01-Aug-2024

OFFICER REPORT

Site Description

119 Huddersfield Road is a rendered, detached dwelling with single and two storey elements. The property has gardens and a drive to the front with a modest amenity space to the rear.

The land to the rear is open fields and there are dwellings to the front and sides of varying ages and styles.

Description of Proposal

The applicant is seeking permission for a front porch, canopy to the rear, fenestration alterations and solar panels.

The front porch would have a width of 2.7m and a projection of 1.1m from the original front wall with a pitched roof form. The walls would be rendered with tiles for the roof covering

The canopy to the rear would extend out 3.5m from the side of the existing single storey rear extension with a depth of 3.9m and a lean to roof.

The plans also show an alteration to a ground floor window in the front elevation and two, high level windows on the rear dormer.

The plans also show 7 solar panels on the front roof slopes.

Relevant Planning History

2007/92544 - erection of ground floor extension - approved

2008/90936 - erection of detached dwelling with integral garage - approved

2008/91920 - removal of condition for 2008/90936 - approved

2011/91033 - nma for 2008/91920 - approved

Representations

The application was advertised by neighbour letters, which expired on 25/07/2024

As a result of the above publicity, no representations have been received.

Kirkburton Parish Council have been notified with no response received.

Consultation Responses

None

Policy

Section 38(6) of the Planning and Compulsory Purchase Act 2004 requires that planning applications are determined in accordance with the Development Plan unless material considerations indicate otherwise. The statutory Development Plan for Kirklees is the Local Plan (adopted 27th February 2019).

The site is UNALLOCATED on the Kirklees Local Plan Proposals Map

On 12th November 2019, the Council adopted a target for achieving 'net zero' carbon emissions by 2038, with an accompanying carbon budget set by the Tyndall Centre for Climate Change Research. National Planning Policy includes a requirement to promote carbon reduction and enhance resilience to climate change through the planning system and these principles have been incorporated into the formulation of Local Plan policies. The Local Plan predates the declaration of a climate emergency and the net zero carbon target; however, it includes a series of policies which are used to assess the suitability of planning applications in the context of climate change. When determining planning applications, the Council will use the relevant Local Plan policies and guidance documents to embed the climate change agenda.

Kirklees Local Plan Policies

- **LP 1** – Achieving sustainable development
- **LP 2** – Place shaping
- **LP 22** – Parking
- **LP 24** - Design

Kirklees Council adopted supplementary planning guidance on house extensions on 29th June 2021 which now carries full weight in decision making. This guidance indicates how the Council will usually interpret its policies regarding such built development, although the general thrust of the advice is aligned with both the Kirklees Local Plan (KLP) and the National Planning Policy Framework (NPPF), requiring development to be considerate in terms of the character of the host property and the wider street scene. As such, it is anticipated that this SPD will assist with ensuring enhanced consistency in both approach and outcomes relating to house extensions.

National Policies and Guidance:

National planning policy and guidance is set out in National Policy Statements, primarily the National Planning Policy Framework (NPPF) published December 2023, and the Planning Practice Guidance Suite (PPGS) first launched 6th March 2014 together with Circulars, Ministerial Statements and associated technical guidance.

The NPPF constitutes guidance for local planning authorities and is a material consideration in determining applications.

- Chapter 12 – Achieving well-designed and beautiful places
- Chapter 13 – Protecting green belt land
- Chapter 14 – Meeting the challenge of climate change, flooding and coastal change
- Chapter 15 – Conserving and enhancing the natural environment
- Chapter 16 – Conserving and enhancing the historic environment

Assessment

Principle of development:

The site is without notation on the Kirklees Local Plan (KLP). Policy LP1 of the KLP states that when considering development proposals, the Council will take a positive approach that reflects the presumption in favour of sustainable development contained in the NPPF. In terms of extending and making alterations to a property, Policy LP24 of the KLP is relevant, in conjunction with the House Extensions & Alterations SPD and Chapter 12 of the NPPF, regarding design. In this case, the principle of development is considered acceptable, and the proposal shall now be assessed against all other material planning considerations, including visual and residential amenity, as well as highway safety.

Impact on visual amenity:

Key Design Principle 1 of the House Extensions & Alterations SPD does state that extensions and alterations to residential properties should be in keeping with the appearance, scale, design and local character of the area and the street scene. Furthermore, Key Design Principle 2 of the House Extensions & Alterations SPD goes onto state that extensions should not dominate or be larger than the original house and should be in keeping with the existing building in terms of scale, materials and details.

The proposal under consideration consists of four distinct elements which shall be addressed below.

Front porch

Paragraph 5.13 of the House Extensions & Alterations SPD states that front extensions are highly prominent in the street scene. As per paragraph 5.14 of the House Extensions & Alterations SPD, careful consideration needs to be given to ensure that they are carefully designed to limit the potential for them to erode the character, they should be small and subservient to the main house and constructed using appropriate materials.

The front porch would be modest in terms of scale and constructed using appropriate materials. Therefore, the front porch is considered to be acceptable in terms of visual amenity.

Rear canopy

Paragraphs 5.1 and 5.2 of the House Extensions & Alterations SPD go into further specific detail regarding rear extensions requiring development to maintain the quality of the residential environment, respect the original house and use appropriate materials.

The canopy proposed would be in line with the existing rear extension. The property would retain a reasonable amenity space and therefore the scale is considered to be acceptable. The materials proposed would be appropriate for a canopy. The canopy is therefore considered to be acceptable in terms of visual amenity.

Fenestration alterations

Paragraph 4.2 of the House Extensions & Alterations SPD states that “the local context, character and identity of the area will be a significant factor in determining the appropriate form and scale of alterations”. Paragraph 4.6 states “where extensions seek to differ from the existing materials, design, roof pitch or detailing, proposals will be considered on a case by case basis.”

The alterations proposed in terms of the fenestration area limited to a shift in size of a ground floor window on the front elevation and the inclusion of two, high level windows on the rear elevation. The changes are modest and considered to be acceptable in terms of visual amenity.

Solar Panels

Policy LP24 and KDP10 encourage household developments to utilise renewable energy methods. Paragraph 4.27 goes on to say that household extensions should strongly consider the opportunities for microgeneration of renewable energy. Proposals should have regard to opportunities to include renewable microgeneration technologies such as solar photovoltaics, solar water heating (aka solar thermal), ground, air and water source heating/cooling systems and hydro-electric generation in new extensions.

Although the proposed solar panels would have a position of prominence in the front roof plane, these are considered to be acceptable in terms of appearance and in line with the Local Plan and SPD.

Having taken the above into account, the proposals would not cause any significant harm to the visual amenity of either the host dwelling or the wider street scene, complying with Policy LP24 of the Kirklees Local Plan (a) in terms of the form, scale and layout and (c) as the extension would form a subservient addition to the property in keeping with the existing building, KDP 1 & 2 of the House Extensions & Alterations SPD and the aims of chapter 12 of the National Planning Policy Framework.

<u>Impact on residential amenity</u>:

Consideration in relation to the impact on the residential amenity of neighbouring occupants shall now be set out, taking into account policy LP24 c), which sets out that proposals should promote good design by, amongst other things, extensions minimising impact on residential amenity of future and neighbouring occupiers. The House Extensions & Alterations SPD goes into further detail with respect to Key Design Principle 3 on privacy, Key Design Principle 5 on overshadowing/loss of light and Key Design Principle 6 on preventing overbearing impact.

There are no properties directly to the front or rear which could be affected by the works proposed.

Impact on 117 Huddersfield Road

Given the limited scale of the works proposed, there would be no detrimental impact on the amenities of the occupiers of the adjacent property to the northwest.

With regards to the impact on the adjacent 117 Huddersfield Road, the scheme has been considered in terms of KDP3 – privacy, KDP5 – overshadowing and KDP 6 – overbearing impact of the House Extensions & Alterations SPD, policy LP24 of the KLP c) in term of minimising impact on neighbouring occupiers and advice within chapter 12, paragraph 135 of the NPPF and the proposals are considered to be acceptable.

Impact on dwelling under construction

The site adjacent to the southeast is currently under development for a new dwelling. However, given the limited scale of the works proposed, there would be no potential for the amenities of the future occupiers to be harmed.

With regards to the impact on the adjacent building site, the scheme has been considered in terms of KDP3 – privacy, KDP5 – overshadowing and KDP 6 – overbearing impact of the House Extensions & Alterations SPD, policy LP24 of the KLP c) in term of minimising impact on neighbouring occupiers and advice within chapter 12, paragraph 135 of the NPPF and the proposals are considered to be acceptable.

Having considered the above factors, the proposals are not considered to result in any adverse impact upon the residential amenity of any surrounding neighbouring occupants, complying with Policy LP24 of the Kirklees Local Plan (b) in terms of the amenities of neighbouring properties, Key Design Principles 3, 5, 6 & 7 of the House Extensions & Alterations SPD and Paragraph 135 (f) of the National Planning Policy Framework.

<u>Impact on highway safety</u>:

The proposals will not result in any intensification of the domestic use. Bin storage for the dwelling would not be moved as part of the proposals. As such

the scheme would not represent any additional harm in terms of highway safety and as such complies with Policy LP22 of the Kirklees Local Plan along with Key Design Principles 15 & 16 of the House Extensions & Alterations SPD.

Other matters:

Carbon Budget

The proposal is a small scale domestic development to an existing dwelling. As such, no special measures were required in terms of the planning application with regards to carbon emissions. However, there are controls in terms of Building Regulations which will need to be adhered to as part of the construction process which will require compliance with national standards.

The installation of solar panels will contribute positively to the aims of carbon budget.

There are no other matters for consideration.

Representations:

None

Negotiations:

None

Proposed conditions

Along with the standard timescale condition, which is a requirement of Section 91 of the Town and Country Planning Act 1990, it is considered appropriate to add the following conditions.

Accordance with the approved plans to ensure the development is carried out in line with the officer's assessment.

The render should be conditioned as an off white colour to ensure the appearance is acceptable.

Conclusion:

This application for a porch to the front, canopy to the rear, fenestration alterations and solar panels at 119 Huddersfield Road has been assessed against relevant policies in the development plan as listed in the policy section of the report, the House Extensions & Alterations SPD, the National Planning Policy Framework and other material considerations. Given the acceptable design and lack of harm in terms of visual and residential amenity, the proposals are considered to be acceptable.

The NPPF has introduced a presumption in favour of sustainable development. The policies set out in the NPPF taken as a whole constitute the Government's view of what sustainable development means in practice.

As set out above, this application has been assessed against relevant policies in the development plan and other material considerations. It is considered that the development would constitute sustainable development and is therefore recommended for approval.

Recommendation **Approve**

Decision Authorisation - Delegated Powers
Application Number: 2024/91528
Officer Recommendation: Approve
Conditions and Reasons

1. The development hereby permitted shall be begun within three years of the date of this permission.
Reason: Pursuant to the requirements of Section 91 of the Town and Country Planning Act 1990.

2. The development hereby permitted shall be carried out in complete accordance with the plans and specifications schedule listed in this decision notice, except as may be specified in the conditions attached to this permission, which shall in all cases take precedence.
Reason: For the avoidance of doubt as to what is being permitted and so as to ensure the satisfactory appearance of the development on completion, and to accord with Policy LP24 of the Kirklees Local Plan, Key Design Principles of the House Extensions & Alterations SPD and the aims of the National Planning Policy Framework.

3. The render shall be finished with an off white colour and thereafter retained.
Reason: In the interests of visual amenity and to accord with Policy LP24 of the Kirklees Local Plan, Key Design Principles of the House Extensions & Alterations SPD and the aims of chapter 12 of the National Planning Policy Framework.

NOTE: The granting of planning permission does not override any private legal rights or consents that may be required. It is the responsibility of the applicant / developer to ensure that all appropriate consents are in place prior to any development commencing; during the period of construction existing access for neighbouring properties is maintained; and no damage is caused to the access driveway or surrounding properties.

NOTE: To minimise noise disturbance at nearby premises it is generally recommended that activities relating to the erection, construction, alteration, repair or maintenance of buildings, structures or roads shall not take place outside the hours of:

07.30 and 18.30 hours, Mondays to Fridays
08.00 and 13.00hours, Saturdays

With no working Sundays or Public Holidays

In some cases, different site specific hours of operation may be appropriate. Under the Control of Pollution Act 1974, Section 60 Kirklees Environment and Transportation Services can control noise from construction sites by serving a notice. This notice can specify the hours during which the works may be carried out.

Plans and specifications schedule: -
