Hi Richard.

Further to the comments below, please find attach an extract of the revised forward visibility splay to show the speed bend increased 6.1m (dimensioned)

I can also confirm that the forward visibility SSD used on the speed bend is 23m. and have dimensioned one of the lines for your information.

If you can confirm that the attached proposals are acceptable, then I will formally issue the revised site plan under the PRoW revision.

Any queries please give me a call

Kind Regards

Garry Griffiths
