Appendix A – Climate Change Statement

Climate Change Statement for Planning Applications

Part 1: Applicant details

Name of applicant/agent	Mr N Hussain (Agent)
Site Address	1 Spinkfield road HD2 2AY
Description of Development	Front and Rear Dormers and single storey extenstion

Part 2: Climate Change Mitigation measures

Please respond to the following questions considering the measures set out in the Climate Change Guidance note:
Q1: What measures have been/will be taken to reduce the energy demand associated with your proposed development beyond the minimum required in Building Regulations? (See section 2)
Comply with New Building Regulations
Q2: What measures have been/will be taken to limit the carbon consumed through the implementation and construction processes, e.g. by reusing existing on-site materials or sourcing materials locally? (See section 3)
Locally sourced materials are to be used to build single storey extenstion. Materials will be ordered as and when required to minimise waste
Q3: What measures have been/will be taken to utilise renewable or low carbon energy sources? (See section 4)

N/A
Q4: What measures have been/will be taken to ensure the building design and layout has been optimised to energy efficiency beyond the minimum requirements in Part L of the Building Regulations ? (See section 5)
N/A
Q5: What measures have been/will be taken to reduce potential impacts of flooding associated with your proposed development? (See section 6)
The site is located in Flood Zone 1 so the risk / impact of flooding from the site is low.
Q6: What measures have been/will be taken to reduce water stress associated with your proposed development? (e.g. Water retention and minimisation measures) (See sections 7 and 8)
The site is located in Flood Zone 1 so the risk / impact of flooding from the site is low.
Q7: What measures have been/will be taken to provide biodiversity net gains? (See section 8)
The site is located in Flood Zone 1 so the risk / impact of flooding from the site is low.
Q8: What measures have been/will be taken to reduce air pollution associated with your proposed development? (See section 9)
Locally sourced materials
