I wish to appeal this planning, planning that already been erected. I'm also questioning Planning's professionalism in how it has been handled so far.
I am given the wrong application number on the 21/02 only to find that appeals close on the 22/02. How can you justify this?
Anyway for now, we are putting in an appeal.
•Our privacy is compromised - you can see into our kitchen
•We are and are Christianity is also compromised. We believe in and are often in our private garden. Police have been contacted to enquire if this is legal and they have confirmed that we are doing nothing wrong, in fact we should be free to practice our religion without prejudice (police log:57681221 08/12/21 I can guarantee that if this erection is passed, it will lead conflict. We will not stop practicing and can only apologise for any residents that take offence.
•On a very sensitive note, my partner is now feeling spied on and is becoming . I am not implying anyone IS spying on us, however because we are now overlooked rightly or wrongly, this is her perception of the situation - a situation that could have been avoided if the owners had not tried to be clever.
•My are not what they used to be and the is a long way away up stairs. I regularly in my garden and I'm not making excuses. Be aware that unless the roof is put back as it was, that is with Velux ceiling windows, rest assured this too will cause conflict and bad feeling - conflict and bad feeling that can easily be avoided. I urge you to not approve the newly erected dormer. It will cause friction, disputes, . This can all be halted if the owners remove the dormer and return it as was before they purchased it, and respect the planning that had previously been approved.

"Do you wish your comments to be published on the website anonymously?" This is a little ambiguous in my opinion. Let me make it quite clear, I do not want to risk my appeal not being taken into account and I think I have ticked the right box Please ensure that my appeal is noted and taken into account
