Subject: 2024/92353 at location 42, Church Lane, Thornhill, Dewsbury, WF12 0JZ

Hi There,

Please see ecological commentary below:

Designations
No issue

Onsite habitats and species

The buildings on the site both have bat roosting features. A PBRA will be required as a result.
There is a priority habitat of deciduous woodland within 100m of the site.

Further information is required prior to decision. Several records for protected and priority species and habitats are present within 1km of the site. A Preliminary Bat Roost Assessment is therefore required prior to decision to assess the site habitats, the likely presence of protected and/or priority species, and the value of site habitats to protected and/or priority species.
Reason: In the interests of biodiversity and in accordance with LP30 and NPPF15.

BNG
The development claims to be a custom build, which would make it exempt as set out in Schedule 7A of the Town and Country Planning Act 1990 (as amended). So long as the case officer is happy with the required paperwork regarding Self-build and Custom Housebuilding Act 2015 then I have no further queries. Please do let me know if further information does come to light.

Suggested conditions
To be confirmed once the PBRA is provided and reviewed.

Many thanks,
Katie
