Subject: RE: Consultation on application 2022/90245 - land at Abbey Road North, Shepley, Huddersfield, HD8 8DY

We have no objection to the substation and the slight alignment change of the connecting path. Hope this is still a multi use link

However, I believe a 2.4 m boundary is far too high in this location adjacent to a well use bridleway I have looked through the previous application and cannot see what was agreed. All I can see is the mentioning of a dry stone wall. What is there at the moment is very low

Sharon
