Postcode:	BD4 0SL

User comments

Type of comment: An objection	
Do you wish your comments to be published on the website anonymously?	Yes
I support previous comments on access, appearance and design of the proposed development. I note that the site size stated vastly exceeds the realistic footprint of the 2 houses suggesting this the "thin edge ". Situated below the site are 4 ponds fed entirely by the surface water run off from the ground above where the development will be sited. The ponds house a variety of wildlife ,newts frogs and nesting ducks The agents response to the environment shows the same lack of concern and attention to detail as the identification of the existing development
