Erection of detached garage and associated works

Date Responded:4/5/22
Responding Officer: Matthew Moss
Responding Ref: CA 58

The only trees on site worth consideration are a small group of silver birch to the rear of the property which are a good distance from the proposed development area and the required excavation is not within the root protection area.
The earth that will be removed to facilitate the garage construction is being removed from site from the front as are the building materials being brought in which will minimise any further risk of harm to these trees.
Therefore, I have no objection to these proposals.
