Our house is directly opposite No 26 Grimescar Meadows and I have observed the steady growth of traffic relating to the online pharmacy business, the subject of the application. The traffic extends beyond 9 to 5. There are a number of small children living the cul-de-sac who are in some danger when playing outside. Now that there are employees, the business has outgrown the environment. There seems to me to be an inherent hazard in having a pharmacy in a domestic house given the dangers of many substances.
