I object to this planning application very strongly . We,the residents of Grimescar Meadows , have had to put up with frequent deliveries and collections from Number 26 for along period of time . I think that the time period is in excess of 5 years now . I have seen a very large wagon making deliveries ,via pallet truck ,because he could not drive past the Whitebeam Park turn off .The number of Transit sized delivery vans that frequent No 26 on a daily basis is far in excess of what anyone would consider as reasonable. These vans have no respect for safety of the residents. They speed past our house .My grandchildren often visit us and I am in fear for there lives with the speeding traffic past our house . For the reasons stated I object to this application and I hope that the pharmacy is shut down as soon as possible .
