I wish to object to application number 2025/93355 on the grounds of highways safety.
Sight lines from driveways on Wellhouse Lane are already restrictive and demand extreme caution due to dangers posed by traffic coming down Wellhouse Lane and from Woodward Court. To add in the extra traffic generated by the building of the Bellway houses would greatly increase this hazard.
This point has been noted at the previous planning inquiries.
The current application shows Woodward Court as the only access in and out of the proposed development, placing the increased traffic pressure entirely on the junction with Wellhouse Lane.
Highways safety will be compromised along the whole length of Wellhouse Lane by the extra traffic generated by this proposed development, particularly approaching the junction with Flash Lane. This stretch is only wide enough for one car and even has a lowered kerb to allow moving vehicles to mount the pavement. As a frequent pedestrian on this pavement I already often feel at risk and intimidated by traffic on this stretch and dread the prospect of even more traffic on a lane totally unsuited to increasing traffic levels.
