Bellway has already made several applications to build on this site, all of which have been turned down. My main objection is about congestion. I was a teacher at Crossley Fields School before I retired and parking around the local roads before, after and during special events at the school was potentially dangerous. Police were often called to monitor the congestion at this time and some drivers were given parking tickets, but still the dangerous parking continued. When the children were returned to school after swimming or other events using a coach it was often and still is impossible to drive the coach through the congestion. The children have to get off the coach as near as possible to school and be guided safely through the congestion. Now Bellway are proposing to add another estimated 100+ cars from 75 houses to the mix. Building this new estate involves constant movement of heavy machinery and loaded wagons onto the site ONLY through Woodward Court, which is a narrow road, right next to the school. This is an accident waiting to happen, children, large numbers of cars, parked and on the move, heavy machinery and frayed tempers, all contributary factors. I strongly object to Bellway building on this proposed site. The safety of people and especially children is paramount, above the profits of a large building company.
