Subject: Planning application 2025/93355

I live at 20 chestnut meadows, mirfield. I wish to formally object to application 2025/93355 on the grounds that Hepworth Lane cannot safely accommodate the extra traffic the development would generate. The lane is too narrow in places for two cars to pass and lacks footpaths, forcing both vehicles and pedestrians—especially schoolchildren—to share the road, which increases the risk of congestion and accidents.
Also the increased traffic to wellhouse lane and area, its already dangerous. My daughter attended Crossley Fields J &I school until 2025 so ive seen first hand!
