This change of use will ensure the building is utilised by the community for a positive purpose. The change seems to ensure that the building will pretty much remain as is and will be sympathetic to it's history. It's vital that this building be well maintained and a centre for the local community and this project and change of use will allow that and ensure its conservation is maintained for future generations. I do not foresee that this project will have any detrimental impact on the local community as there will be limited additional traffic (I expect most will be walking), no noise etc. Our family wholeheartedly support this.
