Subject: OBJECTION TO PLANNING APPLICATION 2023/92519 - BUTCHERS ARMS, HEPWORTH

Categories:

Dear Sirs,

Further to your letter dated 18th October 2023, we have viewed the proposed plans for alterations to the position of the extraction vent and wish to register our objection.

To the front of our property we have a garden and patio enclosed by a 1.6m high boundary wall running parallel to Uppergate, which conceals the presence of the existing extractor visually (although not masking current noise and odour emissions).

We are strongly concerned that the proposed repositioning of the extractor at a higher level will:-

1) Increase the smell of fried food odours both internally and externally to our home

2) Increase noise levels when the extraction system is in operation

3) Result in an uninterrupted view of the much larger extractor from our garden

This will severely impact on the enjoyment of our home and garden
who has asked us to comment on her behalf.

Yours Faithfully,

,

The Cruck House,
Carr Farm,
Uppergate,
Hepworth
