Application number – 2024/70/91673W I am a local resident, and I am 100% against the building of this property. This application is only minor changes but the new drawings by the new architect don't show any definition as to where the driveway will be and how wide, the elevation drawing is showing boundary lines not dropped kerb width. This was a major complaint during the original application but was ignored by the council and permission given anyway, now it doesn't show anything so can they now drop the kerb to any length they want..???
