Consultation Response from: KC Environmental Health (Pollution & Noise Control)		
2024/91816 Centurion House, Centurion Way, Cleckheaton, BD19 3QE		
Advertisement Consent for erection of illuminated and non-illuminated signs		
Responding Date: **15th July 2024**	**Responding Officer:** **SR**	**Responding Ref:** **WK202421657**

Comments

We have reviewed the application and supporting information, we offer the following comments. The application concerns several internally illuminated signs. We have reviewed the application, which indicates that all but one of the signs will have a maximum illumination of 300 cd/m^2 . One sign will have a maximum illuminance of 400 cd/m^2 .

Due to the location of the proposed signage in an industrial type of estate just off the motorway and in relation to the residential properties some distance across Bradford Road we do not consider there to be any significant Environmental Health impacts with this development.

We would however remind the applicant that should glare or stray light from the installation cause nuisance; Kirklees Council has powers under Sections 80 of the Environmental Protection Act 1990 to prevent statutory nuisance including artificial light and must serve an abatement notice when it is satisfied that a statutory nuisance exists or is likely to occur or recur. Failure to comply with a notice served using the above-mentioned legislation would be an offence for which the maximum fine on summary conviction is unlimited.
