Stadium complex, extension to outline for whole, hotel and ski slope

Hello case officers,

The provision for public access in the indicative plans for the whole site outline renewal is poor, particularly along the riverside corridor.

The proposed link route for the two separate hotel and ski slope proposals appear inadequate for the purpose described "footpath/cycle" link – i.e. too narrow. Also, the connectivity to ongoing parts needs to be clearly identified.

Construction including levels etc. would need to be clarified, too at the appropriate stage(s).

Regards,
Giles
