Stick and stones are valuable to the local community.
Without them we would need to find an alternative and there is a lack of experienced childminders within the area.
This business employs
local people and training for younger members of staff,
Sticks and Stones is very close for my grandson to attend my Son and daughter in law would struggle to find approved and well educated childminder they would need to travel much further afield ,this would not be cost efficient for them,but also has a negative impact on my grandson as he's been going since he was young,
He has made lots of friends a come has come on leaps and bounds since attending Sticks and stones.
Sticks and stones had has close links schools within the area supports transitions for children within the area
There is a significant shortfall of this provision in the locality, If Sticks and Stones closed it would be a massive negative inpact on the local community.
Many thanks
