I am writing to formally oppose the plan to build a retaining wall to the rear of my property
I have seen strata developers on site this morning discussing what looks like plans to commence the work without prior consultation with residents and before it has actually been approved - This is a lack of transparency and no consideration to how this will impact on me has been offered

I strongly oppose this and worry the impact of having this so close within the proximity of my home and bedroom windows. This development is already impacting detrimentally on my . If this goes ahead with following proper procedure it is scandalous.

I formally request that no work continue until the proper channels and legal and procedures have been followed and concluded

Kind regards
