

**Town and Country Planning (Development Management Procedure) (England)
Order 2015**

PLANNING PERMISSION FOR DEVELOPMENT

**NOTE: This approval should be read in conjunction with an Agreement made
under Section 106 of the Town and Country Planning Act 1990**

Application Number: 2017/62/91623/W

To: Jonathan Ainley,
Savills
Belvedere
12, Booth Street
Manchester
M2 4AW

For: Jones Homes (Yorkshire) Limited

**In pursuance of its powers under the above-mentioned Act and Order the
KIRKLEES COUNCIL (hereinafter called "The Council") as Local Planning
Authority hereby permits:-**

ERECTION OF 58 DWELLINGS AND ASSOCIATED MEANS OF ACCESS

At: LAND AT, DUNFORD ROAD, HADE EDGE, HOLMFIRTH, HD9 2RT

**In accordance with the plan(s) and applications submitted to the Council on
11-May-2017, subject to the condition(s) specified hereunder:-**

1. The development hereby permitted shall be begun within three years of the date of this permission.

Reason: Pursuant to the requirements of Section 91 of the Town and Country Planning Act 1990.

2. The development hereby permitted shall be carried out in complete accordance with the plans and specifications listed in this decision notice, except as may be specified in the conditions attached to this permission, which shall in all cases take precedence.

Reason: For the avoidance of doubt as to what is being permitted and so as to ensure the satisfactory appearance of the development on completion, and to accord with Policies BE1, BE2, and T10 of the Kirklees Unitary Development Plan as well as the aims of the National Planning Policy Framework.

3. The dwellings shall be constructed of local natural stone and local natural slate. Samples of all facing and roofing materials shall be submitted to and approved in writing by the Local Planning Authority before works to erect the superstructure of any dwelling commence. Thereafter the development shall be constructed of the approved materials.
Reason: In the interests of visual amenity and to accord with Policies BE1 and BE2 of the Kirklees Unitary Development Plan.

4. In the event that contamination not previously identified by the developer prior to the grant of this planning permission is encountered during the development, all works on site (save for site investigation works) shall cease immediately and the Local Planning Authority shall be notified in writing within 2 working days. Unless otherwise agreed in writing with the Local Planning Authority, works on site shall not recommence until either (a) a Remediation Strategy has been submitted to and approved in writing by the Local Planning Authority or (b) the Local Planning Authority has confirmed in writing that remediation measures are not required. The Remediation Strategy shall include a timetable for the implementation and completion of the approved remediation measures. Thereafter remediation of the site shall be carried out and completed in accordance with the approved Remediation Strategy.

Following completion of any measures identified in the approved Remediation Strategy a Validation Report shall be submitted to the Local Planning Authority. Unless otherwise agreed in writing with the Local Planning Authority, no part of the site shall be brought into use until such time as the whole site has been remediated in accordance with the approved Remediation Strategy and a Validation Report in respect of those works has been approved in writing by the Local Planning Authority.

Reason: To address land contamination matters and to accord with Policy G6 of the Kirklees Unitary Development Plan and Chapter 11 of the National Planning Policy Framework.

5. Prior to first occupation of any dwelling the approved visibility splays of 2.4m x 120m level with the proposed footway from the site access along the frontage of Dunford Road shall be provided in accordance with plan drawing 2847-0-001 Rev J and thereafter be retained.

Reason: To ensure that suitable access is available for the development and to accord with Policy T10 of the Kirklees Unitary Development Plan.

6. Prior to first occupation of any dwelling, the approved vehicle parking areas shall be surfaced and drained in accordance with the Communities and Local Government; and Environment Agency's 'Guidance on the permeable surfacing of front gardens (parking areas)' published 13th May 2009 (ISBN 9781409804864) as amended or superseded; and retained thereafter. No alternative surfacing material shall be used except where full details have been submitted to and approved in writing by the Local Planning Authority.

Reason: In the interest of highway safety, sustainable drainage, and to ensure adequate space within the site for vehicle movements and parking and in accordance with Kirklees Unitary Development Plan Policy T10 and Chapter 10 of the National Planning Policy Framework.

7. A scheme detailing the proposed internal adoptable estate roads shall be submitted to and approved in writing by the Local Planning Authority before works to construct the foundations of any dwelling commence. The scheme shall include full sections, drainage works, street lighting, signing, surface finishes and the treatment of sight lines, together with independent safety audits covering all aspects of work. Thereafter the scheme shall be completed in accordance with the approved details before first occupation of any dwelling and be retained thereafter

Reason: To ensure that suitable access is available for the development and to accord with Policy T10 of the Kirklees Unitary Development Plan.

8. A scheme detailing the proposed 2m wide footway and all associated highway works along the frontage of Dunford Road in accordance with plan drawing 2847-0-001 Rev J shall be submitted and approved in writing by the Local Planning Authority before works to construct the foundations of any dwelling commence. Thereafter the scheme shall be completed in accordance with the approved details before first occupation of any dwelling and be retained thereafter

Reason: To ensure that suitable pedestrian access is available for the development and to accord with Policy T10 of the Kirklees Unitary Development Plan.

9. Prior to construction commencing, a schedule of the means of access to the site for construction traffic shall be submitted to and approved in writing by the Local Planning Authority. The schedule shall include the point of access for construction traffic, details of the times of use of the access, the routing of construction traffic to and from the site, construction workers parking facilities and the provision, use and retention of adequate wheel washing facilities within the site. All construction arrangements shall be carried out in accordance with the approved schedule throughout the period of construction.

Reason: In the interests of highway safety during the construction phase and to accord with Policy T10 of the Kirklees Unitary Development Plan.

10. A scheme demonstrating adequately designed soakaways for an effective means of drainage of surface water on the site shall be submitted to and approved in writing by the Local Planning Authority before works to construct the foundations of any dwelling commence. The scheme shall include seasonal percolation tests in accordance with BRE Digest 365 along with calculations demonstrating that the designed soakaways can store a critical 1 in 30 year storm event and can empty by 50% within 24 hours. Evidence that the critical 1 in 100 year storm with a 30% allowance for climate change can be safely retained on site is required. The scheme shall include a maintenance and management plan for all sustainable drainage systems. No dwelling shall be first occupied until the works comprising the approved scheme have been completed, including enacting the management and maintenance plan, and retained thereafter. Where it is demonstrated that soakaways prove not to be an adequate method of draining surface water an alternative surface water drainage scheme should be submitted for consideration with discharge rates and attenuation requirements to be confirmed by the Local Planning Authority.

Reason: To ensure the provision of adequate and sustainable systems of drainage are employed, in the interests of amenity, environmental well being and to accord with Policy BE1(iv) of the Kirklees Unitary Development Plan and the aims of the National Planning Policy Framework.

11. An assessment of the effects, and mitigation thereof, of 1 in 100 year storm events, with an additional allowance for climate change, exceedance events and blockage scenarios on drainage infrastructure and surface water run-off pre and post development between the development and the surrounding area, in both directions, shall be submitted to and approved in writing by the Local Planning Authority before works to construct the foundations of the dwellings commence. No dwelling shall be first occupied until the works comprising the approved scheme have been completed and such approved scheme shall be retained thereafter.

Reason: To ensure the provision of adequate and sustainable systems of drainage are employed, in the interests of amenity, environmental well being and to accord with Policy BE1(iv) of the Kirklees Unitary Development Plan and the aims of the National Planning Policy Framework.

12. Development shall not commence until a scheme, detailing temporary surface water drainage for the construction phase (after soil and vegetation strip) has been submitted to and approved in writing by the Local Planning Authority. The scheme shall detail:

- phasing of the development and phasing of temporary drainage provision.
- include methods of preventing silt, debris and contaminants entering existing and new drainage systems and watercourses and how flooding of adjacent land is prevented.

The temporary works shall be implemented in accordance with the approved scheme and phasing. No phase of the development shall be commenced until the temporary works approved for that phase have been completed. The approved temporary drainage scheme shall be retained until the approved permanent surface water drainage system is in place and functioning in accordance with written notification to the Local Planning Authority.

Reason: In the interest of satisfactory and sustainable drainage; to ensure that the development can be properly drained, and to ensure that no surface water discharge takes place until proper provision has been made for its disposal; and to accord with Policy D2 of the Kirklees Unitary Development Plan and Chapter 10 of the National Planning Policy Framework. This is a pre-commencement condition in order to ensure that adequate drainage works are carried out at the appropriate stage of the development.

13. No piped discharge of surface water from the application site shall take place until works to provide a satisfactory outfall, other than the existing local public sewerage for surface water have been completed in accordance with the Flood Risk Assessment (prepared by Dudleys - Report 15383 Revision 05 dated 09/05/2017) that has been submitted to and approved by the Local Planning Authority

Reason: To ensure that the site is properly drained and in order to prevent overloading, surface water is not discharged to the foul sewer network and to accord with Chapter 10 of the National Planning Policy Framework

14. A Low Emission Travel Plan shall be submitted to and approved in writing by the Local Planning Authority before works commence to construct the foundations of the dwellings. The travel plan shall include details of:-

- mechanisms for discouraging high emission vehicle use
- encouraging modal shift, (i.e. to public transport, cycling, walking and car clubs)
- encouraging the uptake of low emission fuels and technologies
- improved pedestrian links to public transport stops
- improved convenient and segregated cycle paths to link to the local cycle network.

Thereafter the approved travel plan shall be implemented prior to first occupation of any dwelling and retained thereafter.

Reason: To accord with the sustainability principles of the National Planning Policy Framework and to address matters of air quality in accordance with the West Yorkshire Low Emissions Strategy 2016 to 2021.

15. Prior to first occupation of each dwelling an electric vehicle recharging point shall be installed within the curtilage. Cable and circuitry ratings shall be provided to ensure a minimum continuous current demand of 16 Amps and a maximum demand of 32Amps. Thereafter the electric vehicle recharging point so provided shall be retained.

Reason: In the interests of promoting modes of transport with ultra-low emissions and to accord with the sustainability principles of the National Planning Policy Framework.

16. A mitigation plan detailing the proposed mitigation measures to protect the Peak District Moors (South Pennine Moors Phase 1) Special Protection Area and South Pennine Moors Special Area of Conservation from the impacts of development as detailed in Step 4 of the Stage 2 Habitats Regulations Assessment (Appropriate Assessment) shall be submitted to and approved in writing by the Local Planning Authority before works to construct the foundations of the dwellings commence. Thereafter the development shall be undertaken in accordance with the approved mitigation plan before any dwelling is first occupied.

Reason: To provide mitigation for the ecological effects identified through the assessment undertaken in respect of nearby European protected sites and regulation 61 of the Conservation of Habitats and Species Regulations 2010.

17. The development shall be carried out in accordance with the approved landscaping and planting detailed on plan drawings UG_11535_LAN_01 and UG_11535_LAN_02. The scheme shall from its completion, be maintained for a period of five years. If, within this period, any tree, shrub or hedge shall die, become diseased or be removed, it shall be replaced with others of similar size and species unless the Local Planning Authority gives written consent to any variation.

Reason: To mitigate against the impact of the development and to ensure that there is a well laid out scheme of healthy trees and shrubs in the interests of amenity and to accord with the National Planning Policy Framework.

18. Notwithstanding the provisions of the Town and Country Planning (General Permitted Development) (Amendment) (No.2) (England) Order 2015 as amended (or any Order revoking or re-enacting that Order) no doors, windows or any other openings (apart from any expressly allowed by this permission) shall be created in the elevations of plot 1 and 50 hereby approved.

Reason: So as not to detract from the amenities of neighbouring property by reason of loss of privacy and to accord with Policy BE12 of the Kirklees Unitary Development Plan

19. Notwithstanding the provisions of section 55 (2)(a)(ii) of the Town and Country Planning Act 1990 and the Town and Country Planning (General Permitted Development) Order 2015 (or any order revoking and re-enacting that Act or Order with or without modification) no development included within Classes A, B and C or E of Part 1 of Schedule 2 to that Order shall be carried out.

Reason: To avoid an overdevelopment of the site in the interests of visual amenity and to protect the residential amenity of occupiers of neighbouring residential properties and to accord with Policy BE12 of the Kirklees Unitary Development Plan

NOTE: In respect of condition 16, a Section 106 agreement may be required to discharge the condition.

NOTE: The granting of planning permission does not authorise the carrying out of works within the highway, for which the written permission of the Council as Highway Authority is required. You are required to consult the Design Engineer (Kirklees Street Scene: 01484 221000) with regard to obtaining this permission and approval of the construction specification. Please also note that the construction of vehicle crossings within the highway is deemed to be major works for the purposes of the New Roads and Street Works Act 1991 (Section 84 and 85). Interference with the highway without such permission is an offence which could lead to prosecution.

NOTE: - Adoption under Section 38 of the Highways Act:

It is brought to the Applicants' notice that the Highway Development, Investment & Regeneration, Civic Centre 3, Market Street, Huddersfield HD1 2JR (Kirklees Street Care: 0800 7318765 or 'Highways.Section38@kirklees.gov.uk') must be contacted to discuss road adoption arrangements under Section 38 of the Highways Act 1980.

NOTE: All contamination reports shall be prepared in accordance with CLR11, PPS23 and the Council's Advice for Development documents or any subsequent revisions of those documents

NOTE: To minimise noise disturbance at nearby premises it is generally recommended that activities relating to the erection, construction, alteration, repair or maintenance of buildings, structures or roads shall not take place outside the hours of:

07.30 and 18.30 hours Mondays to Fridays
08.00 and 13.00hours , Saturdays

With no working Sundays or Public Holidays

In some cases, different site specific hours of operation may be appropriate.

Under the Control of Pollution Act 1974, Section 60 Kirklees Environment and Transportation Services can control noise from construction sites by serving a notice. This notice can specify the hours during which work may be carried out.

Pursuant to article 35 (2) of the Town and Country Planning (Development Management Procedure) Order 2015 and guidance in the National Planning Policy Framework, the Local Planning Authority have, where possible, made a pre-application advice service available, complied with the Kirklees Development Management Charter 2015 and otherwise actively engaged with the applicant in dealing with the application. The case officer undertook negotiations with the applicant to secure revisions to the layout to address the density of development, a Landscape & Visual Appraisal and landscaping plan and swept path analysis.

Building Regulations Approval is required for most work involving building operations and/or structural alterations. It is the applicant's responsibility to find out if the work permitted by this planning permission needs approval under the Building Regulations, and if necessary to submit an application. If you are not the applicant can you please ensure the applicant is aware of this requirement. Contact Building Control on Telephone: (01484) 221550 for more information.

It is the applicant's responsibility to find out whether any works approved by this planning permission, which involve excavating or working near public highway and any highway structures including retaining walls, will require written approval from the Council's Highways Structures Section. Please contact the Highways Structures Section on Tel No. 01484-221000 Ext 74199 for further advice on this matter.

Details Reserved by Condition

- This permission has been granted subject to conditions. Some of the conditions may require you to submit further details. These conditions normally contain the wording “submitted to and approved in writing by the Local Planning Authority”.
- You can apply online for approval of these details at the Planning Portals website at www.planningportal.gov.uk. Alternatively the forms and supporting guidance for submitting an application can be found online at www.kirklees.gov.uk/planning.
- This Authority recognises the need to ensure that you are able to develop the site as effectively and flexibly as possible. However, at the same time it must ensure that development is in accordance with the terms of the planning conditions and legal agreement and the expectations of elected members and local residents set through the decision process.
- You should note the triggers for compliance with the conditions of this planning permission. This Authority is committed to processing applications to discharge conditions in a timely manner. It is important to ensure that submissions are made as far in advance of the trigger to allow time for adequate consultation, discussion and in some circumstances publicity.
- It is important that applications to discharge conditions are accompanied by sufficient information to enable this Authority and its consultees to fully consider and determine the proposals. Whilst officers will endeavour to negotiate solutions, failure to provide a comprehensive submission may result in delay and refusal of the application.
- If you commence work without discharging conditions you are at risk of enforcement action and invalidating your permission if the planning condition is a pre commencement condition.

Development within a Coal Mining Area

The proposed development lies within a coal mining area which may contain unrecorded coal mining related hazards. If any coal mining feature is encountered during development, this should be reported immediately to the Coal Authority on 0345 762 6848.

Further information is also available on the Coal Authority website at: www.gov.uk/government/organisations/the-coal-authority

The application has been publicised by notice(s) in the vicinity of the site. It is respectfully requested that the notice(s) now be removed and responsibly disposed of to avoid harm to the appearance of the area

Appeals to the Secretary of State

- If you are aggrieved by the decision of your local planning authority to grant it subject to conditions, then you can appeal to the Secretary of State under section 78 of the Town and Country Planning Act 1990.
- If an enforcement notice is served relating to the same or substantially the same land and development as in your application and if you want to appeal against your Local Planning Authority's decision on your application, then you must do so within:
 - i) 28 days of the date of service of the enforcement notice, or
 - ii) within the specified period, starting on the date of this notice,whichever period expires earlier.
- If you want to appeal against your Local Planning Authority's decision then you must do so within the specified period, starting on the date of this notice.
- The "specified period" is 12 weeks where the development relates to a "minor commercial application" as defined within the Town and Country Planning (Development Management Procedure) Order 2010 (as amended), or 6 months in any other case.
- Appeals must be made using a form which you can get from the Secretary of State at Temple Quay House, 2 The Square, Temple Quay, Bristol BS1 6PN (Tel: 0303 444 5000) or online at <https://www.gov.uk/planning-inspectorate>. Further information on the Planning Appeal process can be found online at the Planning Inspectorates website <https://www.gov.uk/government/organisations/planning-inspectorate>.
- You must use the correct Planning Appeal Form when making your appeal. If requesting forms from the Planning Inspectorate, please state the type of application that the appeal relates to so they can send you the appeal form you require.
- The Secretary of State can allow a longer period for giving notice of an appeal, but he will not normally be prepared to use this power unless there are special circumstances which excuse the delay in giving notice of appeal.
- The Secretary of State need not consider an appeal if it seems to him that the local planning authority could not have granted planning permission for the proposed development or could not have granted it without the conditions they imposed, having regard to the statutory requirements, to the provisions of any development order and to any directions given under a development order.

- In practice, the Secretary of State does not refuse to consider appeals solely because the local planning authority based their decision on a direction given by him.

Please note, only the applicant possesses the right of appeal.

Purchase Notices

- If either the local planning authority or the Secretary of State refuses permission to develop land or grants it subject to conditions, the owner may claim that he can neither put the land to a reasonably beneficial use in its existing state nor render the land capable of a reasonably beneficial use by the carrying out of any development which has been or would be permitted.

In these circumstances, the owner may serve a purchase notice on the Council. This notice will require the Council to purchase his interest in the land in accordance with the provisions of Part VI of the Town and Country Planning Act 1990.

An important part of improving our service is to review your feedback on the way that we have dealt with your planning application(s). Please take a couple of minutes to email your comments to dc.admin@kirklees.gov.uk so that we can work on continually improving our customer service. Thank you.

Dated: 19-Dec-2017

Signed:

Naz Parkar
Strategic Director Economy and Infrastructure

Application Plans

The decision notice indicates which plan/s relate to the decision.

Plans can be viewed on the Planning and Building Control web site:

<http://www.kirklees.gov.uk/business/planning/planning.asp>

If a paper copy of the decided plan is required please email:

planning.contactcentre@kirklees.gov.uk

or telephone 01484 414746 with the application number.

There may be a charge for this service.

Address to which all communications should be sent:
