Tree 1
conka tree

Damage to tree, leaning over very badly. Branch snapped at top, going to need removing as it is at the entrance to The Copse and is dangerous. Already remored fallen branches but there is still a large branch with a large spilt and it is dangerous. Therefore needs attention.

On Tree 1 would be grateful for advice whether it needs to be removed or not as it is badly leaning over our property.

TREE 2.

Tree 3
