Oakenshaw Monument was removed 30 March 2022 and the Kirklees representatives and newsletters at the time indicated it was taken down to be repaired by stonemasons off site to make it easier for them.

When I last saw photos from last year, I saw no evidence of the repairs having been done yet?

Will you be fixing the steps that were damaged by the HGV off site or are you intending to replace pieces?

Are you intending to repair the parts that were done in the 80s by locals after they appealed to Kirklees to repair correctly then by specialists? They need acknowledging on an interpretation board as they were the ones to get it listed.

Are you intending to have the stone cleaned before bringing back to Oakenshaw after leaving it under trees, on a car park verge and intermittently under plastic tarp which showed sycamore seedlings and aphid sap landed and growing on the stonework?

As we are aware it's been moved from the grass verge to indoor storage, I hope everything that had broken off, was not left behind?
