Subject: 2025/93355 Land off Woodward Court, Mirfield.

Having submitted my objections to Bellway Homes' planning application several months ago, I'm dismayed that they have managed to change many aspects of their submission. Numerous previous applications have been made, amended, appealed against and withdrawn, but nothing changes the problems that this development will cause to the current residents, and now the potential new ones.

The new road audit does not address the problem of road safety. Wellhouse Lane does not need traffic calming because traffic cannot go up and down there at speed, ever. The road is busy all the time and not just at school times. The Cricket Club and Evangelical Church attract drivers who park on the road and narrow it even further. Pedestrians are constantly at risk.

They are also currently at risk because of vehicles turning into the narrow entrance from Flash Lane to Hepworth Lane. The egress road from the new development will not just be used by drivers from the estate. It will be used as a rat run between Sunnybank Road and Shillbank Lane. The danger will be exacerbated.

The updated plans will not ease traffic problems. They will add to them, and I wish to maintain my objection to this application.

🙏Stay safe🙏 ✌
