<p>Not only is the shears public house of importance due to the Luddite connection but we also have an overburdened infrastructure in the local area. Local schools, amenities and in particular drainage impact should be considered before adding any additional pressure to these. This may only be 4 dwellings but when considered with the number of additional dwelling units already approved in the last few years and how many more applications will be made I think it prudent to review amenities prior to any approvals been granted. Ideally I would prefer to keep the Luddite link.</p>
