We live in the neighbouring property at the top of the drive. We do not have any objection to these works being carried out. We do not see any impact to the overall appearance and value K Trout as a neighbour. We would like her to be able to live in the property for as long as she is able and this small extension will enable this. She has already reduced the environmental impact of the property by installing double glazing and solar panels and takes great care of the land.
